Digital Oasis Control Center is the backend control platform that gives you access to every part of the online production. Log-in and simply input the specs of your virtual event design. Build the number of rooms/presentations you would like and assign dates and times to each session. Add presenters, build sponsor packages and customize the look and feel of your Virtual Venue. Control Center is at the heart of the Digital Oasis ecosystem.

Every event is different and with the Digital Oasis Control Center interface you have the freedom to customize, make changes and analyze results every step of the way. Think of it like your production office. Stay organized and avoid the chaos and unknown of the virtual event world. Build the event you want to host and take control with Control Center.
