## COMPLETE PRODUCTION CONTROL IN THE CLOUD

- 100% CLOUD BASED SOLUTION
- BROADCAST CONTROL ROOM CAPABILITIES
- CONNECTED SHOW TECHNICAL CREW
- SCALABLE ENVIRONMENT
- REAL-WORLD PRODUCTION WORKFLOW
- REHEARSAL READY

## SO YOU CAN MANAGE YOUR DIGITAL EVENT WITH CONFIDENCE

Work with your professional production team in real-time to rehearse, manage and run your successful event with confidence safely in the cloud. Presenters are prepared, production value is high and you are in control with Digital Oasis Studio.

Accessible from anywhere and secure for everyone. Digital Oasis Studio delivers the first complete control room to operate entirely from the cloud -- making remote production possible from anywhere. With the tools and technicians your event needs connected in one virtual space, your Stage Managers, Producers, Directors, Audio Engineers and Graphics Ops are all working together -- remotely. Video recorded directly in the cloud to speed post-session transfer time, tech crew size scales based on needs, and the Studio works seamlessly in the Digital Oasis environment using secure bonded technology. Plus, with virtual green rooms, your presenters have a space to meet the production staff and prepare for their presentation, ensuring smooth speaker transitions. Digital Oasis Studio gives you access to all of the tools, operators and workflows you know from live events . . . in the digital world. So you can deliver the same quality results at a fraction of the cost.
