

WorldStage

**PRESENT FROM ANY
STAGE . . . ANYWHERE**

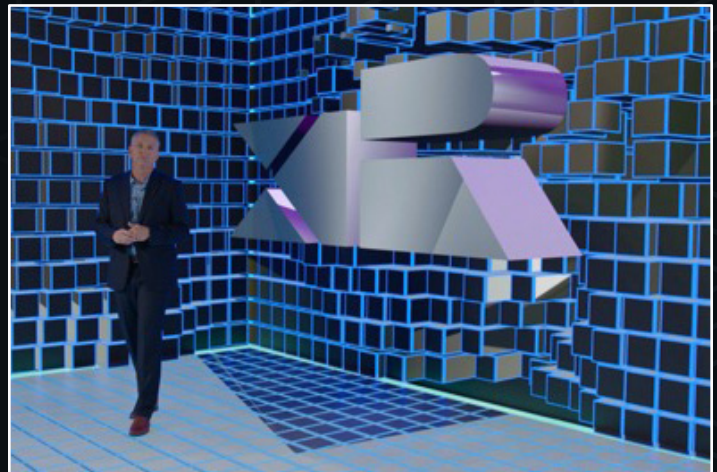

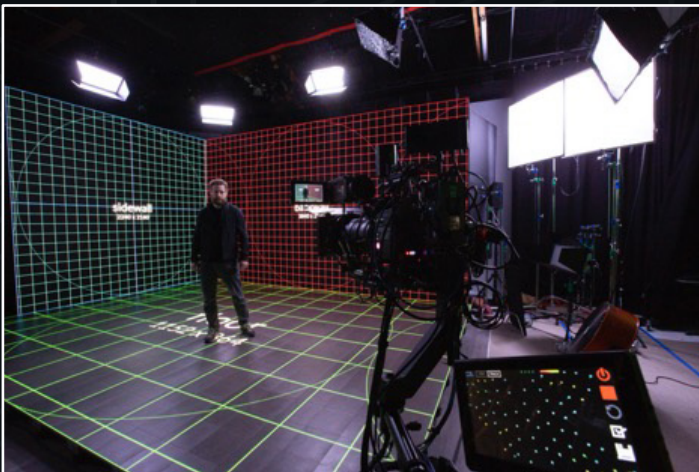

xSTREAM STAGE

KEY COMPONENT OF

With **xStreamStage** your presenter can present from a professional studio stage backed by an impressive array of technology choices. From hi-res LED backdrops to fully immersive 3D environments, WorldStage can provide a solution to make your executive keynote, product demo or power panel of specialists stand out and get noticed. Maybe you need an interactive experience to engage your audience or want to create a custom mixed reality environment to transport your event to an entirely new place. Choose from a number of unique LED stage and backdrop designs or consider using the WorldStage LED Cube or xRStage solutions as remote stages for your presentations. Working hand-in-hand with the Digital Oasis ecosystem, these studio and stage environments give you the flexibility to raise the production value for your most important presentations.
